

# Ceyhun Isazade

## Front-End Developer

As a Front-End Developer, I am skilled at using modern web technologies to enhance the user experience. I have knowledge and experience in basic web languages such as HTML, CSS and JavaScript. I have the skills to communicate and collaborate effectively in project processes. I am good at achieving common goals by working with designers, back-end developers and other stakeholders. I have great enthusiasm to learn and follow new technologies all the time. I continue to improve myself by following current trends in Front-End development.

- UI/UX

## Language

Azerbaijan (Native)

English (B2 Level)

Turkish

## Experience

02.03.2023 - 01.05.2023

CS50x Azerbaijan

### Student

CS50x is an interactive tutorial on algorithmic thinking built for beginners by Harvard professor David J. Malan. Curriculum topics include algorithms, data structures, resource management, security, software engineering, and web programming. Languages include C, Python, and SQL, as well as HTML, CSS, and JavaScript. The course concludes with the participants' final project. You can view the project we prepared as a final project on my LinkedIn and Github account.
